The 8th and final Cinema Spectacular is coming!

In 2014, **Cinema Spectacular**'s first festival kicked off at the Vancity Theatre in Vancouver, BC. Since then, through seven iterations of the festival, we have celebrated independent Canadian filmmakers as artists, storytellers, and purveyors of the craft. Our eighth year will be our last festival, and although it is a bittersweet farewell to our community of filmmakers, we are so pleased to be presenting another exceptional program positively brimming with effervescent Canadian talent.

Your support for our festival provides up and coming filmmakers with an accessible platform to showcase their work. Our alumni have had work screened at the Vancouver International Film Festival (VIFF), the Toronto International Film Festival (TIFF), Inside Out Toronto, the Vancouver Asian Film Festival, and the Academy Awards, among others. **Cinema Spectacular** has always been a grassroots festival run by working filmmakers and volunteers. Local sponsors have helped us grow, entertain, promote, and support filmmaking communities locally, while providing a nexus connecting filmmakers country-wide.

In 2023, our festival will consist of an afternoon of programming featuring 21 films spanning genres, mediums, and provinces. This will be accompanied by filmmaker Q+As, raffle prizes, and our hallowed after party and mixer. Following our live event, our program will be available to watch Canada-wide on our virtual streaming platform to bring these films to every corner of the country. Our mandate has always been to give filmmakers a platform to show their work, talk about their processes, and promote them at every opportunity. This year will be no exception.

Please join us in making our final year a truly **spectacular** one.
